LOCATION	TYPE OF COMMODITY
ACREAGE	ANNUAL AMOUNT PRODUCED \$

VA Code §46.2-698 permits a reduced fee for license plates used on farm vehicles with a gross weight of 7,500 pounds or more and not operated for-hire. The reduced fee is one-half that for private carriers, but not less than \$15.

The owner must be engaged either as an owner, renter, or operator of a farm* of a size reasonably requiring the use of the vehicle for the transport of:

- Agricultural products** of the farm to market or to other points for sale or processing
- Materials, tools, equipment, or supplies to be used or consumed on the farm
- Anything incidental to the regular operation of the farm
- Forest products, including forest materials originating on the farm or incident to the regular operation of the farm
- Farm produce, supplies, equipment, or materials to a farm not worked by the vehicle owner, pursuant to a mutual cooperative agreement.

* Farm – one or more areas of land used for the production, cultivation, growing or harvesting of agricultural products, but does not include a tree farm that is not also a nursery or Christmas tree farm, unless it is part of what otherwise is a farm.

**Agricultural products are defined as any nursery plants; Christmas trees, horticultural, viticultural and other cultivated plants and crops; aquaculture; dairy; livestock; poultry; bee and other farm products.

Non-farm use of the vehicle is limited to the personal use of the owner and his immediate family in attending church or school, securing medical treatment or supplies, or securing other household or family necessities.

It is a Class 2 misdemeanor to operate or to permit the operation of a farm vehicle on a Virginia highway for any other purpose (VA Code §46.2-105.2).
